Getting smart: A young patron at the Carson City Library engaged in a summertime coding camp offered through NCLab, a 2016 Statewide LSTA program

The Nevada State Council on Libraries and Literacy is pleased to present Council's 2016 Report to the Governor and Legislature regarding Nevada's public libraries, the requirement for this report. While outside the scope of information requested, Council recognizes and celebrates the role all of Nevada's libraries play in advancing learning and education.

Libraries and literacy work hand in hand to create the foundation for an informed society; libraries provide free access to the knowledge, information and diversity of ideas essential to a democratic society and literacy organizations nurture the means for each individual to take advantage of what libraries have to offer.

Council is committed to supporting 21st century libraries and literacy initiatives throughout the state and are proud to play a guiding role through an ever-changing, turbulent landscape. We look forward to your continued support.

Dee Dee Bossart, Chair, January 2017

Importance of Libraries & Literacy

In 1965 the legislature created a council with the following declaration:

"Policy of this State; purpose of the chapter. It is the policy of this State to foster and further the establishment and proper maintenance of superior libraries and the acquisition of resources, facilities, professional staffs and auxiliary personnel fully to support such services. The purpose of this chapter is to provide the means for the overview and study of existing library facilities, resources and services and for the formulation of recommendations to strengthen and expand these components." NRS 380A.011

Libraries and literacy work hand in hand to create the foundation for an informed society. Libraries provide free access to the knowledge, information and diversity of ideas essential to a democratic society. Literacy is the means for each individual to take advantage of what libraries have to offer.

Idea & Experience Boxes, Washoe County Library, funded through 2015 LSTA resources.

Nevada Libraries

Nevada families have experienced overwhelming economic challenges during the past several years, unequaled by any other state in the nation. In response, libraries continue as all-inclusive spaces that provide free and equitable access to information in a variety of formats to every resident. Through this downturn that seems reluctant to dramatically change, public libraries especially have played a vital role by offering residents instruction, education, trusted information, and essential workforce readiness coaching.

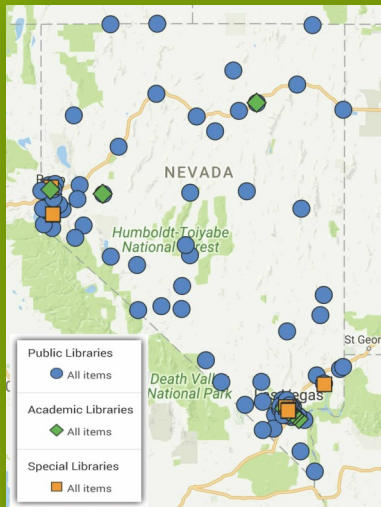

Libraries are Nevada Literacy

Literacy is key to ensuring a successful outcome for the state of Nevada. Nevada Libraries offer programs and services that address a variety of necessary literacies (early, adult, information, digital, cultural, visual, technical, etc.) Literacy programs, from birth to adulthood, provide families with necessary tools for future social mobility & economic stability.

Nevada Library Services & Technology Act (LSTA)

LSTA is a federally funded grant program administered by the Institute of Museum and Library Services. Funds are awarded annually to the Nevada State Library, Archives and Public Records. All types of libraries within the state, including academic, public, school, and special libraries with public access may apply. Each applicant library must certify to NSLAPR that it meets all of the established eligibility criteria. A list of grants awarded during the last two years can found on page 6.

By the Numbers

Map of Nevada Libraries

NV Population: 2.9 million
 21 Public Library Systems
 (86 branches)
 10 Academic Libraries
 17 School District Libraries
 16 Special Libraries

NSLAPR Priorities

- Education/Training
- Digital Literacy
- Workforce Development
- Assessment/Planning
- Community Partnerships
- Traditionally Underserved Communities
- Information Access

YES!

Nevada's libraries have increased their local, state and national level partnerships to aid patrons in improving job skills and education levels.

YES!

Nevada is diversifying its economy and adding jobs that require 21st century skills. Nevada's libraries are playing a key role in helping learners of every age level up their skills and compete for good paying jobs.

Community Priorities for

Early Childhood Education

500,000 children attended 16,000 educational programs at NV public libraries during 2016

Literacy programs, from birth to adulthood, provide families with necessary tools for future social mobility and economic stability. With only 7% of Nevada's eligible 4 year olds attending PreK or Headstart*, libraries play an important role in creating accessible literacy opportunities for the next generation of Nevadans.

- **Elko County Library** partnered with the **Wells Family Resource Center** to offer Easy eReaders for the youngest members of the communities.
- **Henderson Libraries** partnered with the **University of Nevada Cooperative Extension** to offer *Family Storyteller* and *Little Books Little Cooks* literacy programs to families.
- **Lyon County Library, Churchill County Library, Carson City Library, Incline Village Library, Sparks Christian Academy, Lemelson STEM Academy, and the Elko-Lander-Eureka County Library System** partnered with the **Northern Nevada Literacy Council** and **United Way** to offer the *Family Reading Program*. The program's objectives: model ways in which books promote literacy acquisition; encourage families to sing, talk, and play together; and build family libraries by giving away books. During year one, 1,042 parents and children participated in the workshops and 1,056 Family Reading Program books were distributed to build home libraries.

Early Literacy Station, Amargosa Valley Library

*State of Preschool 2015 Yearbook

Internet Access/Virtual Learning

In 2016: 1341 Public Internet Computers, 4 Million Computer/Wifi Sessions, 990K Digital Downloads; Digital Archives and 47 Online Databases w/Newspaper & Journal Articles, Interactive Encyclopedias, Biographies, Audio/Video clips, Photos, Homework Help & Practice Exams

Lovelock Review-Miner, Pershing Co. Library

- **North Las Vegas Library District** leveraged corporate donations, grants and LSTA funds to completely restructure its technology infrastructure, adding server capacity, bandwidth, and dozens of new public access computers with up-to-date software applications focusing on Early Literacy, Family Services, and Workforce Training.
- **Pershing County Library** partnered with the **NSLAPR's** Imaging & Preservation Services Department to digitize 82 microfilm rolls of the *Lovelock Review-Miner* from the 1930's and upload them to the cloud. This project allows historians, researchers, and genealogists online access to Nevada's historical collections from anywhere in the world, offering the public invaluable insight and educational opportunities.

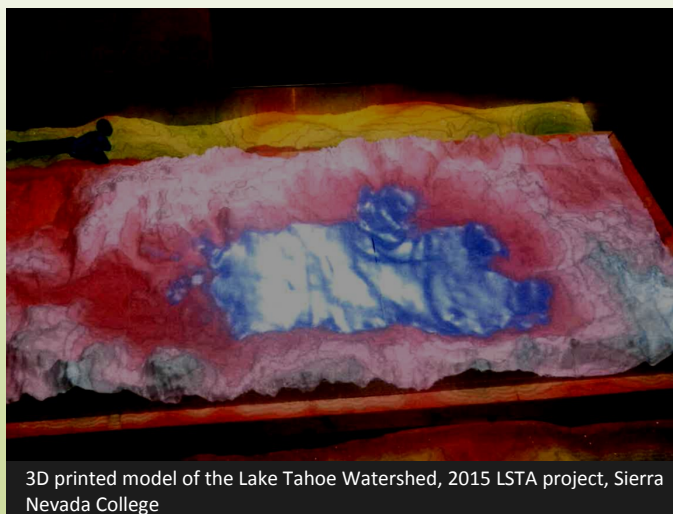

*The International City/County Management Association (ICMA), in partnership with the Aspen Institute and the Public Libraries Association, conducted a nationwide

Nevada Public Libraries*

Digital Literacy

Coding courses, 3D printing, STEM focused collections, technology tools & instruction

- **Churchill County Library** partnered with **Western Nevada College** and **Churchill Economic Development Authority** to provide Microsoft and Cisco certification and training in web design.
- **Carson City Library** partnered with NSLAPR and NCLab to help students develop computer coding skills. NCLab's online coding curriculum is game based, allowing users to work at their own pace, while library staff have been trained to offer one-on-one help and introductions to each course. Carson City Library hosted youth coding camps using NCLab during spring and summer of 2016, which were recognized by the Young Adult Library Services Association (YALSA) of the American Library Association as one of the country's 2016 Top Ten Summer Learning Programs. However, NCLab is meant for learners of all ages; the coding and 3D modeling courses will provide especially useful 21st Century skillsets that are in high demand by Nevada's burgeoning technology industries.

3D printed model of the Lake Tahoe Watershed, 2015 LSTA project, Sierra Nevada College

Primary & Secondary School Attainment

Afterschool & Summer Learning, Test Prep Materials, Teen Centers & Collection Updates

- **Learning Express Library's** cloud based learning centers offer skill building ebooks, tutorials, study plans, practice sets, exams, and Occupational Outlooks targeted towards *School, College, College Prep, High School Equivalency, and Career* attainment. Available online, statewide to all Nevada residents. Also: *GED en Español* and *Recursos Para Hispanohablantes*
- **Mineral County Library's** *Revving-up Teen Services* project provided workforce training and leadership opportunities by creating: two teen library page positions, a Teen Advisory Board to help plan and facilitate future youth oriented library services, and a new Teen Space, with collaborative study areas and access to interactive technology equipment.
- **Churchill County School District Library** updated their aging Science, Technology, Engineering and Math (STEM) collections, aligning new materials with national standards and providing both students and community members with current, relevant and topical resources.

LSTA Project Spotlight

Early Childhood Literacy - Las Vegas-Clark County Library District (LVCCLD).

PreK for All: A Community Approach. This project tested the notion that public libraries are catalysts that initiate and accelerate community change. LVCCLD convened twelve anchor organizations in the area of services for young children, looking for effective resource synergies, partnerships, and strategies. The collaborative, now named "Raising Las Vegas," has accelerated the development of longterm partnerships and a shared plan to significantly improve early childhood development conditions and expand learning opportunities.

Workforce Development - Carson City Library

Nevada's Working Capital. The Carson City Library, Governor's Office of Economic Development (GOED), Carson City School District, Western Nevada College (WNC) and representatives from area advanced manufacturing businesses joined forces to launch a library-based advanced manufacturing apprentice program through which participants can gain MT1 certification. This certification program is recognized by the Manufacturing Skills Institute (MSI) and builds valuable skills in engineering, CAD, statistics, diagnostics, computer programming and maintenance, and can be further leveraged as a pathway to a 2 year applied science degree.

About Council

The Council has advocated for libraries in Nevada for 51 years, since creation in 1965. In 1993 the State Council on Libraries and the Governor's Literacy Coalition Advisory Council merged to form the State Council on Libraries and Literacy Council (SCLL). Today the SCLL serves as the advisory council for the State Library, Archives, and Public Records (NSLAPR) with regard to its many responsibilities relating to libraries and literacy in the State of Nevada.

Mission

To foster and further the establishment and proper maintenance of superior libraries and literacy programs. To promote the acquisition of resources, facilities, professional staffs and auxiliary personnel fully to support library & literacy services.

Council Powers & Duties, NRS 380A.81

The Council may:

1. Examine and overview the whole state of libraries, librarianship, library education, library resources, and all allied and cognate activities and prepare a record of its findings.
2. Require public libraries to provide necessary library statistics and reports and to make recommendations from the advancement of libraries.
3. Report biennially to the Governor and Legislature. The report must be filed on or before January 1 of each odd-numbered year.
4. Publish material pertaining to its work that it may order issued.
5. Review plans and applications submitted by libraries and political subdivisions for state grants-in-aid and make recommendations to the State Library, Archives, and Public Records Administrator concerning approval.
6. Examine and evaluate the programs for literacy in this State.
7. Establish a plan for coordinating programs and activities for promoting and increasing literacy in this State.
